***Allowable Subject Matter***

1. The following is an examiner's statement of reasons for allowance:

The Okada reference discloses a molten carbonate fuel cell comprising: an anode electrode operatively disposed in the fuel cell; and an electrolyte in electrochemical contact with the anode electrode; wherein the anode electrode includes a film consisting essentially of a metal oxide established on a porous plate "35" (substrate) and an organic binder such as polyvinyl alcohol (water soluble polymer) (See column 3, line 27 to column 4, line 68 and Example 4). The Hara reference discloses a solid oxide fuel cell comprising: an air electrode layer "2a" operatively disposed in the fuel cell; and an electrolyte layer "3" in electrochemical contact with the air electrode layer; wherein the air electrode layer includes a lanthanum strontium manganese composite oxide established on a single crystal silicon substrate "4" by a liquid phase deposition method (See Figure 7A and paragraphs [0058]).

However, Okada et al and Hara et al do not expressly teach a metal oxide film having at least one crack formed therein during the process of forming the film. In addition, Okada et al teaches away from a porous plate having one or more cracks formed therein by utilizing metal powders with particle sizes that do not form cracks. In addition, Hara et al also teaches away from a metal oxide layer having one or more cracks formed therein because the object of the Hara reference is "to provide a ceramic sheet ... which exhibits less cracking or breakage even when a large stacking-induced load or thermal stress is applied".

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Tony Chuo whose telephone number is (571)272-0717. The examiner can normally be reached on M-F, 9:00AM to 5:30PM.
